## **Pädagogischer Wert**

Förderung des Vorstellungs- und Abstraktionsvermögens und des logischen Denkens, sowie der Kreativität.

## **Spielmöglichkeiten**

Aximo - das besondere Mosaikspiel mit horizontalem Musteraufbau. Die kleinen Röllchen werden oben auf die gewünschte Reihe des „Kamms“ gesetzt und

rollen dann an ihre vorgesehene Position. Es können phantasievolle Muster entworfen werden, die beidseitig den gleichen dekorativen Wert haben. Mit den Motiv-Vorlagen in den Anleitungsheften lernt das Kind die genaue Bestimmung von Position und Farbe. Mit der Blanko-Vorlage können mühelos selbst Vorlagen erstellt werden.

---

## **Educational value**

Promotion of the children's imagination and abstract thinking as well as support of their logical thinking and creativity.

## **Suggestions for play**

Aximo – the special mosaic game with horizontal pattern design. The small rolls are put on top of the “comb” from where they fall to the intended position.

Imaginative patterns can be designed which have the same decorative value on both sides. With the motif templates in the instruction booklets the child learns to determine the exact positions and colours. With the blank template it is easy to make your own motifs.

---

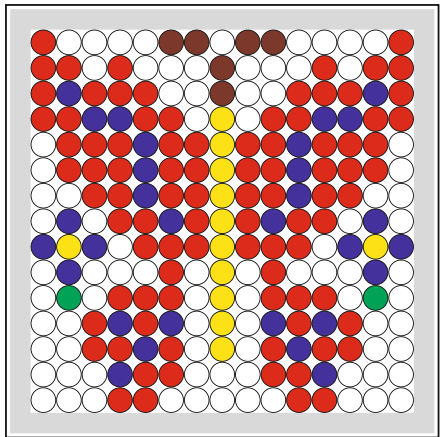

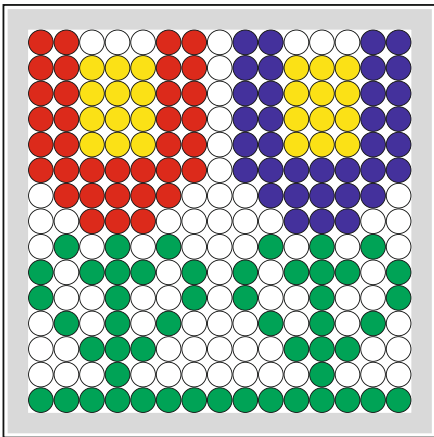

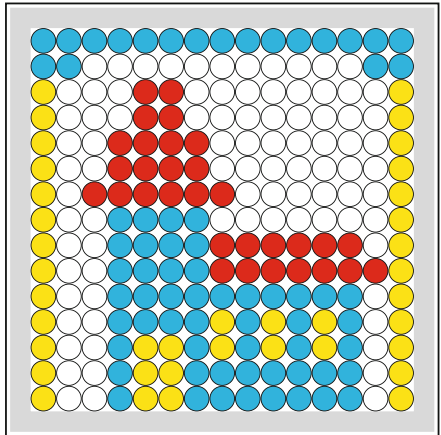

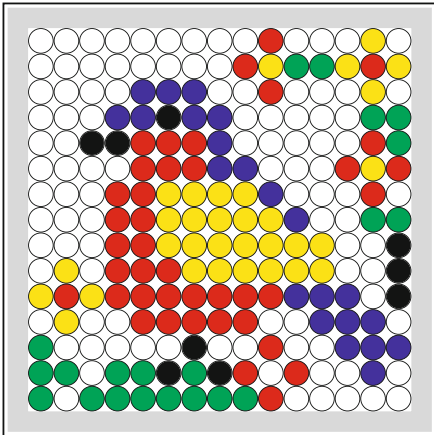

## **Valeur pédagogique**

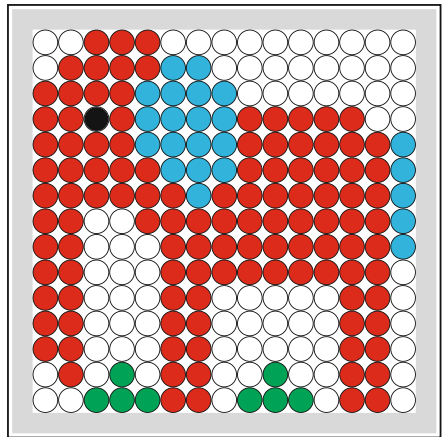

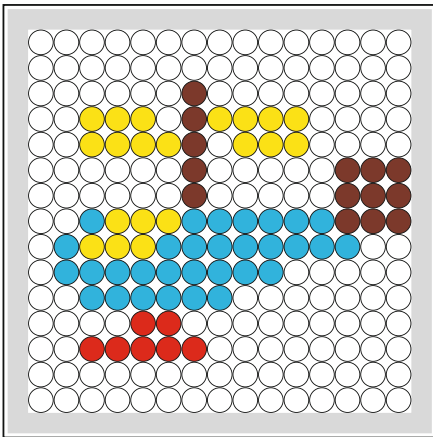

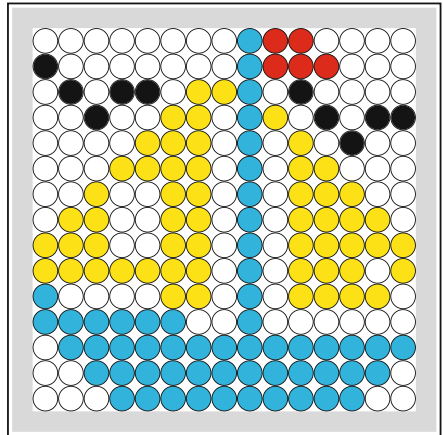

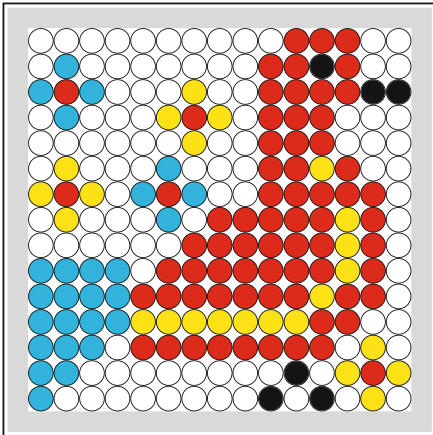

Développement de la capacité de représentation et d'abstraction, de la pensée logique, ainsi que de la créativité.

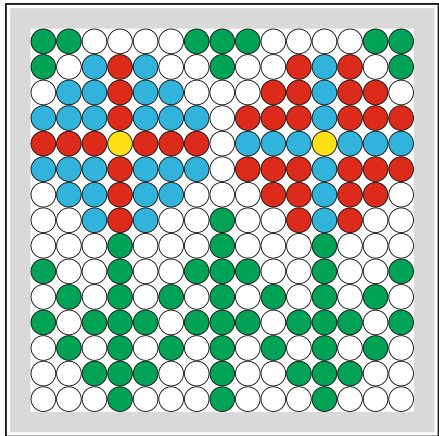

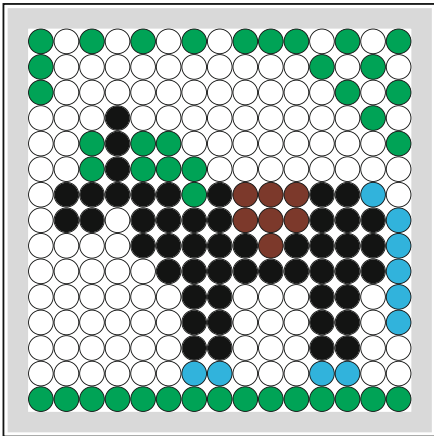

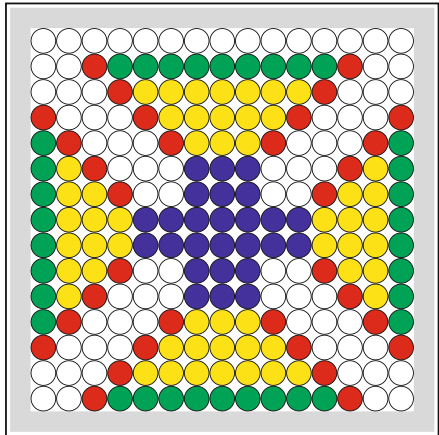

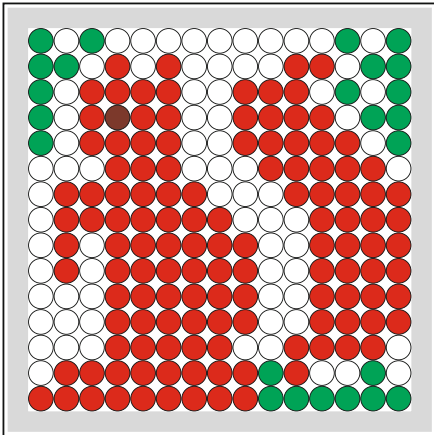

## **Possibilités de jeu**

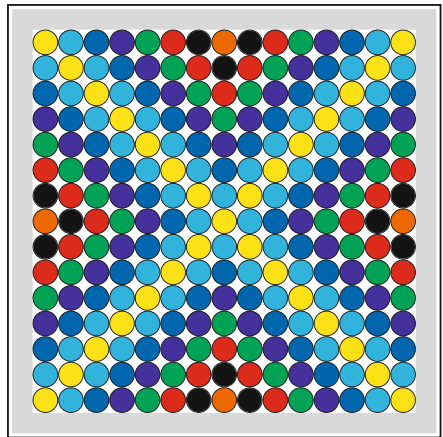

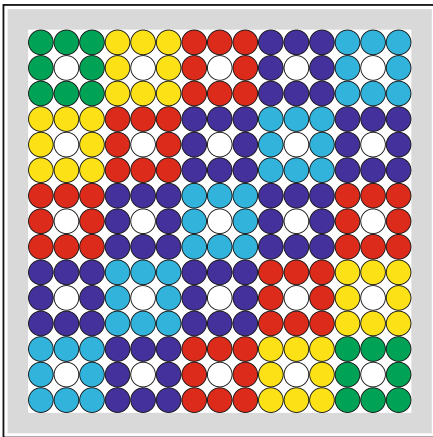

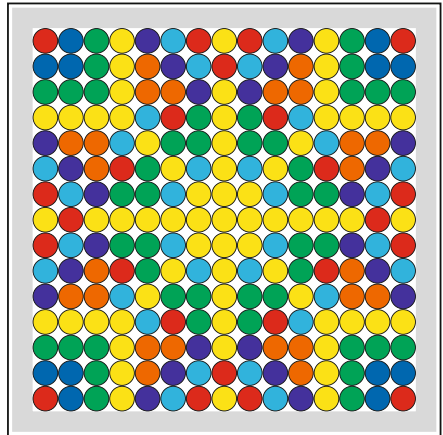

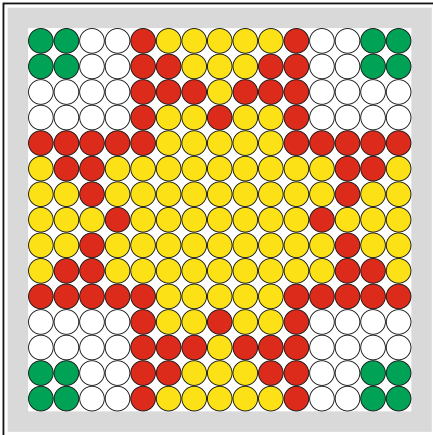

Aximo - Le jeu de mosaïques avec structure de motifs horizontale. Les petits rouleaux sont placés sur la rangée souhaitée du „peigne“ et roulent à la position

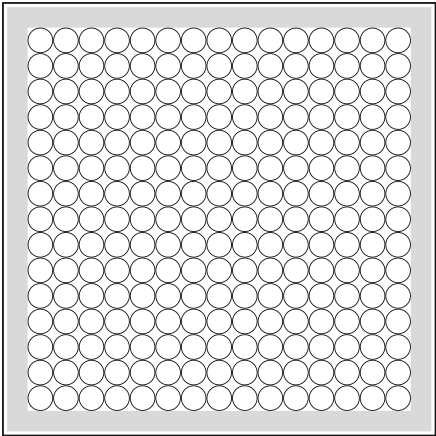

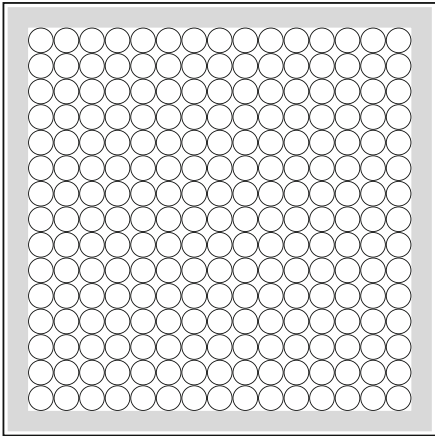

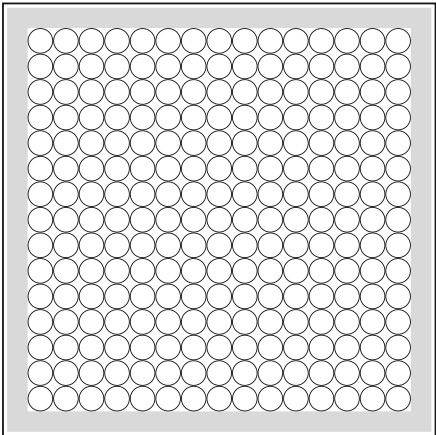

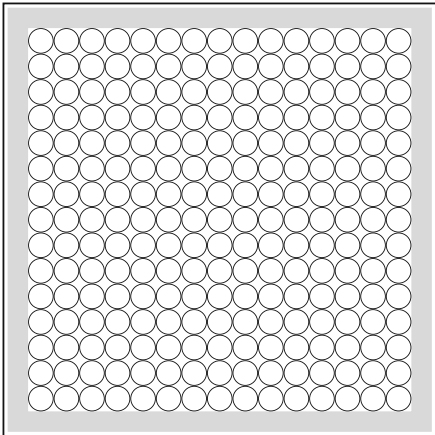

souhaitée. Des motifs fantaisistes apparaissent, avec la même valeur décorative des deux côtés. Grâce aux modèles de motifs se trouvant dans les cahiers, l'enfant apprend à déterminer les positions et couleurs. Le modèle vierge permet de créer en toute simplicité des motifs uniques.
